## NETWORK AND SOCIAL OPPORTUNITY

This is a wonderful opportunity to meet in a social setting and connect with the PANS/PANDAS community. Parents, doctors, nurses, dentists and therapists will be invited to mingle and chat with throughout the evening.

## UPDATE ON SOUTH SHORE, MA PANS/ PANDAS DATA COLLECTION FOR MA DEPT OF HEALTH

Peggy Chapman will be providing an update on the large group of children with PANS/PANDAS in the south shore of Massachusetts and her work with the Massachusetts Department of Health in trying to get the area identified as having a cluster.

## PUBLIC SERVICE ANNOUNCEMENT PROJECT

In addition, we welcome you to participate in a special public service announcement video we will be taping that evening. If you are interested in participating and willing to be videotaped

protocols, information on how Lyme impacts our children and much more.

A November event is being planned in Connecticut where leading PANDAS/PANS experts will be presenting as well. This afternoon event will provide information on navigating the special education system, alternative therapies, legislative updates, advice on treating the "whole family", treatment protocols from national PANS/PANDAS doctors, and information on PANDAS/PANS & ASD/Spectrum disorder.

Keep checking our website for details as they become available.

that evening please [Email Us](#)

We welcome your help with the project and hope you will consider being a part of this educational initiative. The goal of the PSA is to educate the general public of PANS/PANDAS, symptoms to look for, first steps to take if you suspect your child has PANS/PANDAS, the importance of keeping any child that is sick home from school until they have been on antibiotics for 24 hours and so much more.

### **UPDATE ON SOUTH SHORE, MA PANS/ PANDAS DATA COLLECTION FOR MA DEPT OF HEALTH**

Peggy Chapman will be providing an update on the large group of children with PANS/PANDAS in the south shore of Massachusetts and her work with the Massachusetts Department of Health in trying to get the area identified as having a cluster/epidemic.
