PANDAS/PANS PANEL

General Curriculum Access for Students With PANDAS, PANS, and Related Neurological Disorders

Friday, April 21, 2017 - 4:00 PM - 5:00 PM

We provide an overview of increasingly common neurological disabilities that impact classroom functioning across physical, socio-emotional, academic, and behavioral domains. Presenters will describe and model ready-to-implement strategies and initiatives to support students with these disorders at the classroom, school, and district levels.

Session Leader

Patricia Rice Doran, George Washington University

Co-Presenters

Emily Klein, Rhode Island Department of Education

Amy Mazur, Educational Consultant, Washington, D.C.

Gabriella True, NE PANS/PANDAS Association
